# DISTILLED WITH CARE

CARE AND PRECISION GOES INTO EVERYTHING WE DO

## LOCALLY SOURCED INGREDIENTS

Here at Harley House we like to source our ingredients as locally as possible. Not only to ensure a crisp sensory experience of flavour but also to give our bottles character and the pure DNA of Sussex.

100% produced by us from the initial ferment to the production of 92-94% ABV Alcohol using our column still which distils the ferment 11 times to ensure the purest and smoothest alcohol.

## BOTTLED BY HAND

All of our bottles are labelled, regulated and numbered by hand. This allows us to intricately quality check our products before sending them out to our lovely customers.

Doing this ensures our customers are getting a bottle made with the upmost care, respect and attention.

## DELIVERED PERSONALLY

All orders within 10 miles of the distillery will be delivered personally by our incredible distiller, Adam. We take immense pride in ensuring our customers get the best quality of service.

## ABOUT US

Started in the late summer of 2017, Harley House Distillery is a small batch distillery based in Seaford, East Sussex.

The distillery was created by Heidi and Adam through Adam's love and desire to produce alcohol and in particular, spirits.

We launched our signature brand, Pure Sussex Gin in September of 2017. The first batch was greeted with such acclaim that we sold out in just under a week.

Each batch we produce consists of a limited number of bottles meaning that we can create each bottle by hand with the upmost care and attention.

Our distillery prides itself on creating unique produce that showcases our local area and leaves a lasting memory on the taste buds. We use water from our aquifer in the South Downs in every batch we create. The water is thoroughly filtered through the South Downs to provide the purest beginning of any spirit. We use the fresh water to create initial alcohol solutions which is unusual however, it is something we particularly pride ourselves on.

Being a family run business means that we take pride in every bottle that goes out of the distillery. Our Creative Distiller produces each batch by hand from start to finish and ensures that the final batch is to his taste satisfaction. The bottles are individually labelled and hand stamped before being carefully hand filled. The final process is placing caps on the bottles, sealing them and boxing before sending them directly to you.

### SUSSEX GIN & TONIC

A classic for any gin drinker. The Sussex G&T focuses on being proud yet elegant. Just like the people of Sussex.

- Chill your glass before filling half full with fresh ice cubes.
- Add a measure (or more) of Pure Sussex Gin.
- Add a few slices of grapefruit zest.
- Top up with a premium tonic\* and finish with a slice of grapefruit or lemon.

\*For a truly Sussex G&T, use Folkingtons Tonic.

## 02

---

### THE GATSBY

A delightfully unique cocktail using our Sussex Blue Gin.

- Start by chilling your favourite glass using fresh ice. (We recommend a tall glass)
- Remove the ice before adding a small amount of grenadine and lime cordial.
- Place a couple of ice cubes carefully into the liquid at the bottom ensuring that some of the ice cubes are out of the liquid.
- Slowly pour a measure of Sussex Blue Gin over the ice cube to get the blue to sit perfectly on top of the other mix.
- Add a few blueberries and raspberries along with a sprig of rosemary to the top before topping up with tonic or soda water.
- Stir the cocktail to experience the full flavour.

## 03

---

### SUSSEX MOJITO

A drink best served with rum yet, supercharged with Pure Sussex Gin.

- Fill your desired glass with ice. (We recommend a tall glass)
- Pour this ice into a shaker along with 8-10 mint leaves.
- Using a muddler (or similar hard object that is able to crush ice) reduce the contents down causing the essential mint oils to flavour the cocktail.
- Pour in a shot of Pure Sussex Gin and a squirt of lime juice.
- You can shake at this stage and add a sparkling mixer e.g. Appletiser however, we prefer to fill the shaker to roughly an inch from the top with cloudy apple juice and shake for roughly 30 seconds.
- Pour into your glass and enjoy with a few extra mint leaves and a slice of lime.
